

# ***Can You Out Think Your Oppressor***

## ***Page 56 – 60***

According to the Macintosh dictionary application,  
“economics |,ekə 'nämiks; ,ēkə-|  
plural noun [often treated as sing. ]  
the branch of knowledge concerned with the production, consumption, and transfer of wealth.”

Allow me to speak to you about a very important matter. It is called spirituality. According to the definition of economics, it is the branch of knowledge concerned with the production, consumption and the transfer of wealth. Do you overstand what I am saying to you?

Let us key in on the word production. Production is key. We have to start producing again. When one produces a product or event they put something into existence that has the potential of affecting a diverse amount of people, their immediate community, or family. There is also the possibility, that which is produced has little to no affect at all.

### **Listen to me!**

Economics is the branch of knowledge that deals with the way a people produce, consume, or transfer their wealth. I love this definition because it gives me a great deal of spiritual incentive. I do not know if you really know where I am going with this but you will in time if you do not already.

### **Listen to me!**

Economics is the branch of knowledge that deals with the way a people produce, consume, or transfer their wealth. Allow us to key in on the word produce. To produce is to create and creation is the most notable attribute of God. According to many religions, man was created in the image and after the likeness of **God**. Therefore, productivity represents the very perpetuation of the highest attribute of God and you have been endowed with this ability on a microcosmic level. Do you overstand what I am saying to you?

In order for us to get out of this situation we must have our God hood restored. Are you walking with me on this one? We have been displaced spiritually and this is why we are struggling so much as a people. The emphasis is not on production and this is killing us as a community. Our inability to create a better situation through production is a lost talent in our community and I am here not single-handedly, but whole heartedly to see to it that we reciprocate this spirit force of iniquity that has plagued us for far too long. I need for you to overstand this one thing and this one thing only. You have a great deal of potential. In fact, we all have a great deal of potential yet, our oppressors are not referred to as our suppressors therefore our self-doubt is the problem.

When we talk about being producers we are talking about being creators and in order to create one must put something into existence that was not here originally. Do you follow what I am saying?

The ability to create is a very spiritual faculty. Therefore, production is an act of a child of God.

When one thinks of God they are often times compelled to associate the word create with God.

When a person creates a product the motivation comes from the spirit. Are you walking with me on this one? Are you still with me? Am I reaching or am I speaking the truth?

We have to be creators again and there is no way around this reality. Let's think about what has been said about the social science of economics. Economics has been defined as the branch of knowledge that deals with the ability to produce, consume, or transfer wealth.

Now, having this definition in mind you must be able to confide in my rationale. Spirituality is all about having a higher cognition. Are you walking with me on this one? I really hope that you are? Spirituality is all about cognition. Just think about this. When you produce a product which is to say create a thing, you must have an awareness beyond the 5 conventional senses to feel what will be in demand before it is actually in demand. When you create a product, which is to say produce a thing you must have an idea of what is in demand. You have to pull from the seat of creativity in order to compete with other people's products.

Being a success is a very spiritual thing because the successful always projects their thoughts by way of their products even if they are the brand themselves. A producer draws up images, sees their target market, and taps into

their minds and hearts in order that they may cater to their potential buyers interest. By consuming more than we produce we have made other races our God and this is why we are in a state of dependency when it comes to all of the other races. If we consume more than we produce then how on Earth are we going to transfer our wealth amongst each other. You would like to believe that all the races on this planet are subtly contributing to a plot that keeps us in a state of poverty but this is not true. We contribute to our poverty more than any other race because we confide in racism. We make subscriptions to racism. We conform to the paradigm of racism so much that we are incapacitated by our very belief in it. Allow this paradigm to shift for the truth of the matter is that racism does not exist in the capacity that we have been told it does. Racism is **Black folklore** imposed upon us by **White Supremecists**. Do you overstand what I am saying to you? Let's be for real!

If we really are the children of **The Most High**, then all I ask is why are we not producing. We can create a situation that precipitates our freedom. You do not still feel that you are free, do you? You are still in a state of bondage but this time around bondage represents a commercial form of **voluntary servitude**.

**Economics** is the branch of knowledge that pertains to the **production, consumption, and transfer of wealth**. Our people are the **biggest** consumers and suffer the consequence of living in the **lowest** income communities.

To produce is to create and to create is to pull from your spiritual essence and bring fourth something into existence.

Surely, that which you create will be in demand if you have a high spirituality or sense of the demand in your atmosphere. It takes a special person to produce a product that will be in demand. It takes an even more special person to create a product or a situation that no one could foresee would be a success before it arrived. However, it takes a divine being, a child of the Most High to fulfill one of the previous two destinies if not both, and then find a way to transfer the wealth amongst their family and community. This is truly divine. Creating a situation that becomes so big that you have an affect for the good on other people's lives. This is a very powerful concept and it actually gives me chills just thinking about it. Do you overstand what I am saying to you?

We have to become producers again because by law, we are children of the Most High, therefore our inherit nature, which is to say birthrite is to create. Continue to hold my hand on this one. You have to overstand the expedience of being a producer.

Many of us would like to believe that no one will support us as a people but this is just not true. On many occasions, products break the barriers of racism. If you were to create the right product or service, the demand for your product would empower you in such a way that even people that exist outside of your community would support you. This is why I always say that we need to act locally and think globally. Are you walking with me on this one? It is our time to take things to the next level.

I hope that you are ready to undergo such a task. After all, you do have the potential. Allow me to give you a great example of what I am talking about so that you may have a point of reference.

#### **Page 204 – 205**

The gold trimming around the United States flag is not on the original flag of the United States before they incorporated. The gold trim denotes being in the jurisdiction of the Incorporated **UNITED STATES**. The flag with the gold trimming is an admiralty flag that denotes maritime law, the law of the seas. When you enter into a court with flag erected such as this one, it is as if you are in a foreign jurisdiction.

You must come to grips with the reality that there are different functionalities of law that you are effected by mostly impart due to your lack of knowledge of them. We will in fact go over these different types of laws in the near future.

The Legal Fiction contradicts Common Law which is the original functionality of **law**, therefore the **Federal Government, THE UNITED STATES OF AMERICA** would have to run the two status' concurrent though they come from two different dimensions. I am talking about the **Legal Fiction** and the **Real Man**, the **Organic Living Soul**.

In order to run these two types of status concurrent, the **legal fiction** and the **organic living soul**, the birth certificates of the living were registered with the Department of Commerce with the **Living Soul's** name represented in all caps thereby giving birth to the legal fiction and because the living gives value to the birth certificate, the organic living soul has now adopted tan apparition of fiction to its character, with the living identifies as a **surety** since the pledge was made on your behalf via the **State**.

When you sign in this way, you sign in this manner because you are making it clear by intention that you refuse to be held accountable or take responsibility for any agreement without having been given full disclosure on the matter. In this way, you are maintaining the integrity of your unalienable rights given to you only by your creator and your creator only. Are you walking with me on this one?

Since your government has monetized your life, which is to say, they made a pledge on your behalf and registered your birth certificate with the **Department of Commerce** and then transferred it to the **United States** treasury, thereby making you the surety having given value for the bond in the first place it is imperative that you right the wrong. Do not accept this. You have unalienable rights meaning your **birthrite** should not be sold.

**Black's Law Dictionary, Sixth Edition,**

***"Unalienable: incapable of being alienated, that is, sold and transferred."***

Inalienable rights on the other hand is completely contrasting in terms of unalienable rights. Inalienable rights can be sold or transferred. Now the catch 22 is the fact that if you allow them to sell and transfer as in trade (**stock market jargon**) your unalienable rights become the property of the state and rendered inalienable (**see Morrison v. State, Mo. App., 252 S.W.2d 97, 101.**)

Do you overstand what I am saying to you? Of course you do. Now I would like to give you some insight on another code before I move forward.

**Page 208 – 209**

Whereas the holding of or dealing in gold affect the public interest, and therefore subject to proper regulation and restriction; and

Whereas the existing emergency has disclosed that provisions of obligations which **purport to give the obligee a right to require payment in gold or a particular kind of coin or currency of the United States, or in an amount of money of the United States measured thereby, obstruct the power of the Congress to regulate the value of money of the United States, and are inconsistent with the declared policy of the Congress to maintain at all times the equal power of every dollar, coined or issued** by the United States, in the markets and in payment of debts.

Now, therefore, be it Resolved by the Senate and House of Representatives of the United States of America in Congress assembled.

They are using the money of account clause to make money through exchanging with the living that they falsely identify as the **Legal Person**. Once your status has become highly evolved for the record you will go as far as using your expense account connected to your birth certificate (**providing you own the certificate legally**). Here is how it would work.

When you see your birth certificate with the red or blue alpha numeric please note that there are 12 letters that may be used before the number sequence begins. The first letter on your birth certificate represents the Federal Reserve Bank that corresponds with your expense account and where it is located. Here you also have the corresponding routing numbers.

The numbers that come after the first letter on your Birth Certificate would represent your account number. You would use these factors to discharge debt but first, change your status. Things are changing and not in your favor.
