WHAT IS A CONSTITUTION?

Better yet! What is a Constitutor?

-A Constitutor is one who passes on his debt to a third party!

-The Constitution of the United States of America is an instrument that passes on the national debt to the states.

-The states became a surety for the national debts

-This obligation set in the Constitution was not invoked until March of 1933 by President F.D. Roosevelt.
HOW DID THE PEOPLE BECOME SURETIES FOR THE NATIONAL GOVERNMENT?

-A Security Instrument possesses legal and equitable title to the property described therein.

-The holder of the Security Instrument possesses the legal title to the property described therein.

-The application for the Birth Certificate is a security Instrument describing the legal and equitable title to all goods held by the “body” thru it’s name.

-Turning over the application for the Birth Certificate to the “public” transfers legal title to the goods (estate).

-The movie- The Wizard of Oz identified the roles that one plays with respect to the Red Blocks.

-A Commercial model also identifies the roles that one plays with respect to the Red Blocks.

-“Signatures” are also dependant on the roles in each Red Block.
The Lion - No Courage - Lion of Judah

The Tin Man - No Heart - Rusted Up

Dorothy - in the land of Oz
- was represented by each of the three characters in playing a role to get her remedy.
- Tinman was the creditor/banker
- Scarecrow was the debtor
- The Lion was the ambassador to control each of the other characters
Commercial model

- We have been operating most of our lives as the Principal.
- We need to operate as the Surety.
- We have always been the underwriter.

- If we act as the principle, the currency moves from the DTC to the corporations
- If we act as the surety, the currency moves from the DTC to the people.
